

Patents and Intellectual Property

Taiga Motors Inc. is committed to the protection of its intellectual property. This page is intended to provide virtual patent marking and to serve as notice under 35 USC §287(a).

Products falling into the following product categories may be covered by the listed patents and patent applications in the United States and/or other jurisdictions of the world. The product categories are provided for convenience only and should not be interpreted to limit the coverage of the listed applications. This list is non-exhaustive; additional design and utility patent applications may be pending in the United States and elsewhere.
